

Summary of Group Project Contributions – Week B Module 4

1. Savi Alwis

- Integrated the coding contributions from the group into the main notebook.
- Suggested that everyone add their contributions directly to the group notebook moving forward.
- Took responsibility for writing the weekly summaries and submitting the deliverables.

2. Moses Kipkemboi

- Fixed Figure 5 and worked on aligning it with the other figures to ensure uniformity.
- Suggested adding a "Conclusions" section after "Limitations" to discuss data bias and algorithmic bias.
- Confirmed that he had completed his assigned tasks.

3. Muqtasid Qureshi

- Added code to rename ethnic groups and uploaded the code to the GitHub main repository.
- Identified an issue with the visuals, specifically different naming conventions in Figure 0 and a missing Figure 5.
- Proposed adding an explanation about data bias and algorithmic bias to improve the report before submission.
- Clarified the expected format for the report, including sections such as Intro, Methodology, Findings, Discussion, and Limitations.

4. Pallavi Suram

- No direct contributions were mentioned in this email thread.

Overall Status:

- Coding contributions have been integrated, and the main report structure has been discussed.
- Visual inconsistencies and the need for improved bias explanations have been noted.
- Savi will handle submission and summaries, while Moses and Muqtasid have completed coding and analytical tasks.
